

## North Plaza

**NAMING OPPORTUNITY: \$200,000**

The Conservatory's North Plaza is the focal point of the Garden. It is often a visitor's first stop when visiting the Garden and it is an awesome sight to behold.

Nestled between the Sunken Garden and the main revenue hub, nearly every visitor crosses through this plaza. Events are staged in this area, so visitors can be close to the ever-changing perennials outside and amenities inside. The fountains can be heard and seen through iconic stone pavilions. The Play Area is just through the Woodlands, so the whole family will make its way through the Plaza.

The North Plaza's expanse and prominent location within the park make it an ideal naming opportunity, with multiple options for signage, which will be coordinated with the donor.

## South Plaza

**NAMING OPPORTUNITY: \$200,000**

Upon exiting the south doors of the Conservatory, visitors will enter the South Plaza. A bed which touches both sides of the south wall makes for a comforting transition, which will be ideal for guests reserving the space for special events. The addition of turf, picnic tables, and a stone fire pit will also make the space an inviting destination within the Garden.

The South Plaza will be a major rental location for weddings, banquets and corporate events. It's a wonderful space joining the curated beauty of the cacti and succulents, and the nature beauty of the Turtle Mountain aspen forest.

The donor who selects the South Plaza as a named gift opportunity will secure a prominent location used for special events, which will create significant visibility.

## Entry Drive

**NAMING OPPORTUNITY: \$100,000**

The Conservatory's Entry Drive is a main vehicle and foot path to the revenue hub and heart of the Garden. This area joins two main parking lots and runs just south of the Children's Play Area and Formal Area.

Shrubs, flowering perennials and trees will line the drive and sidewalks on the way to expanded parking, electric vehicle charger and a drop-off zone outside the Conservatory. The drive also features a great line of sight to the Conservatory from the north and east with large views of the plants inside.

The Entry Drive's prominent location within the park make it an ideal naming opportunity, with multiple options for signage, which will be coordinated with the donor.

You can play a role in transforming the International Peace Garden.
